

International Isotope Society  
UK Group

## 31<sup>st</sup> Annual Symposium on the Synthesis and Applications of Isotopically Labelled Compounds

Friday, 14<sup>th</sup> November 2025  
The Møller Institute  
Cambridge, UK

<https://www.iis-uk.org>

## Scientific Programme

**Dr Jason Lewis**

Memorial Sloan Kettering Cancer Center, USA

*“Radiopharmaceutical Chemistry –  
Precision Medicine in Cancer Treatment.”*

**Dr Grégory Pieters**

CEA, France

*“Nanocatalyzed Hydrogen Isotope  
Exchange: Applications in the Synthesis  
of Tritiated Pharmaceuticals.”*

**Dr Susannah Coote**

University of Bath, UK

*“Making 'Difficult-to-Make' Molecules:  
Photochemistry as an Enabling Tool.”*

**Dr Kevin Joly**

Eurofins Selcia, UK

*“Savolitinib: GMP Radiolabelled API  
Manufacture for a C-14 Human ADME  
Study.”*

**Dr Katherine Wheelhouse**

GlaxoSmithKline, UK

*“Adventures in Pharmaceutical  
Catalysis.”*

**Associate Professor Miriam O'Duill**

University of Nottingham, UK

*“Methodology Development for Small  
Molecule Labelling.”*

**Professor Duncan Browne**

University College London, UK

*“Mechanochemistry, An Opportunity For  
Isotope Chemistry?”*

**Ms Kathryn Webbley &  
Ms Claire Henson**

Pharmaron, UK

*“The Use of Radiolabels from a  
Metabolism Scientist's Perspective..”*
