International Isotope Society
UK Group

32nd Annual Symposium on the Synthesis and Applications of Isotopically Labelled Compounds

Friday, 13th November 2026
The Møller Institute
Cambridge, UK

https://www.iis-uk.org

Scientific Programme

Professor Gill Reid, CBE
University of Southampton, UK.

"Exploring metal-macrocyclic scaffolds for binding fluorine-18."

Dr Antonio Moreno Herrera
AstraZeneca, UK.

"Evaluation of the suitability of extrapolating radio-labelled drug substance stability data for the determination of extended retest periods."

Associate Professor Mattia Silvi
University of Nottingham, UK.

"Homologating carbon chains to unlock new reactivity."

Dr Marie Croft
Pharmaron, UK.

"Application of accelerator mass spectrometry in support of ^{14}C-enabled clinical studies."

Professor Troels Skrydstrup
Aarhus University, Denmark.

"Carbon isotope labelling techniques involving organometallic intermediates."

Dr Graeme McRobbie
Bicycle Therapeutics, UK.

"Gallium-68 radiopharmaceuticals: an industry perspective."

Associate Professor Allegra Franchino
Durham University, UK.

"Adventures in synthesis and catalysis: combining H-bond donors and gold complexes."

Dr Gregory Perry
University of Southampton, UK.

"CO_2 transfer reactions for carboxylation and carbon isotope labelling."
