

International Isotope Society
UK Group

32nd Annual Symposium on the Synthesis and Applications of Isotopically Labelled Compounds

Friday, 13th November 2026
The Møller Institute
Cambridge, UK

<https://www.iis-uk.org>

Scientific Programme

Professor Gill Reid, OBE
University of Southampton, UK.

*"Exploring metal-macrocyclic scaffolds
for binding fluorine-18."*

Dr Antonio Moreno Herrera
AstraZeneca, UK.

*"Evaluation of the suitability of
extrapolating radio-labelled drug substance
stability data for the determination of
extended retest periods."*

Associate Professor Mattia Silvi
University of Nottingham, UK.

*"Homologating carbon chains to
unlock new reactivity."*

Dr Marie Croft
Pharmaron, UK.

*"Application of accelerator mass
spectrometry in support of ¹⁴C-enabled
clinical studies."*

Professor Troels Skrydstrup
Aarhus University, Denmark.

*"Carbon isotope labelling techniques
involving organometallic intermediates."*

Dr Graeme McRobbie
Bicycle Therapeutics, UK.

*"Gallium-68 radiopharmaceuticals:
an industry perspective."*

Associate Professor Allegra Franchino
Durham University, UK.

*"Adventures in synthesis and catalysis:
combining H-bond donors and gold complexes."*

Dr Gregory Perry
University of Southampton, UK.

*"CO₂ transfer reactions for carboxylation
and carbon isotope labelling."*
